

THINK

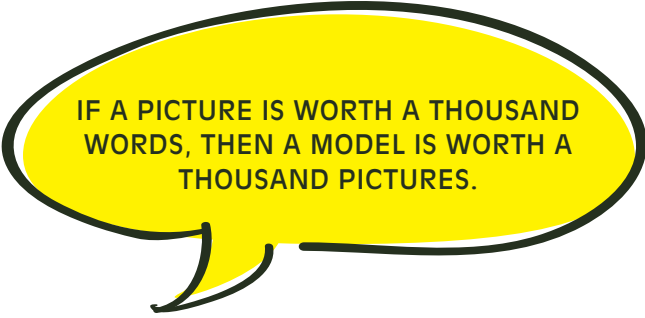

LIKE A GENIUS®

Accelerating Innovation & Problem Solving

Making Innovation Fast and Effective!

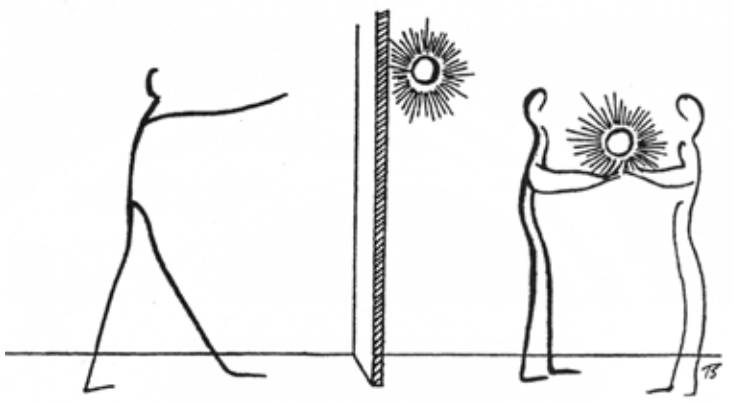

"Think Like a Genius" (TLG) Innovation Workshops are designed to accelerate innovation and problem solving in today's fast paced business environment. This is done through a process called "Metaphorming" which enables business professionals to collaborate in creating solutions to their current challenges. They are guided to create, explore and use 5D symbolic models to achieve their goals.

This innovative approach to problem solving releases the creative genius within your team, allowing participants to physically see and communicate business solutions that can truly transform the organization and achieve major goals. TLC's proven track record of success has helped some of world's most successful companies solve current business challenges and inspire innovative thinking. This includes IBM, Chevron, Chase, Home Depot, the World Economic Forum and many other organizations.

Think like a Genius will:

- 1 Accelerate the innovation and problem solving process in your organization
- 2 Help you navigate through current business challenges in a fresh new way
- 3 Release the Genius potential of your organization and empower individuals to apply genius thinking in solving business challenges.
- 4 Help you identify a roadmap of success bringing your innovation to life.

*GENIUS IS THE ABILITY TO SEE THROUGH THINGS...
...AND SEE THINGS THROUGH.*

Think Like a Genius offers four separate opportunities for your business

A keynote presentation where you are introduced to SOME unique ways to innovate more effectively USING the Metaphorming PROCESS and 5D symbolic modeling, WHICH HELP ACCELERATE problem solving in your business.

A one-day workshop in your organization where you will create several innovative solutions to a current business challenge you're facing.

A two-day workshop in your organization where you will not only create several viable solutions to a current business challenge but where you will also develop a solutions "Roadmap to Success" into a quantifiable work plan complete with measurable benchmarks. This two-day option is perfect for retreat or off-site meetings.

An open enrollment one-day workshop where you can send a team of five from your company with a current business challenge to an event where they can experience the Metaphorming process and 5D symbolic modeling. Participants will create several solutions to their business challenge and will leave with an understanding of how to employ "genius thinking" to solve everyday problems. Open enrollment events are held around the nation at various times of the year.

Testimonials

“A rare combination of scientist and accomplished visual artist, Todd Siler invites each of us to rediscover the scientist-artist in ourselves. Siler's approach is simple, practical, fun, and most importantly, highly productive.”

Peter Senge

Author of The Fifth Discipline:
The Art and Practice of The Learning Organization

“If you want to liberate your mind and look at the corporate world in new and exciting ways then the "Think Like a Genius" process is for you". Dr. Siler has developed a bold concept that will enrich your organization and improve your bottom line.”

Frank Steed

Former President, Samsonite USA
